

Research:

Research: Most teachers write research papers and get them published. A few have written books too. One teacher is awaiting award of PhD this year. Of the total seven teachers of the college, four are PhD holders. Two others are doing their PhD research work. Besides, two have M Phil degrees as well. One faculty member has become PhD Guide/Supervisor this year. So, as of now, there are two faculty members who have become PhD guides.

Projects: One. The principal had completed a UGC-funded Minor Research Project a few years ago.

Publications: The faculty has published a total of about a 100 research papers so far. A few books are also published. A few books are being completed to be published in the near future. The principal himself has published about 50 research papers and a book. Two more books are being edited for publication.

Soil Testing: Soil Testing was organized for the villagers of the adopted village, Borgaon, Bujruk in the academic year, 2019-20.

Medicinal plant Garden: No. But we have a small but beautiful park, and a lovely surrounding treed- border for our vast campus.
